1. Safe custody fees

a) Amount of the safe custody fees

Safe custody fees are charged for the safekeeping of precious metals. The safe custody fees depend on the applicable safe custody fee rate and the amount of precious metal held in the vault at the time of calculation.

Safe custody fee rate: The safe custody fee rate is an annual percentage rate that differentiates on a multi-level basis according to vault level and precious metal type. The applicable monthly safe custody fee rate is 1/12 of the safe custody fee rate defined p.a.

Vault levels: Each vault is divided into one vault level. The following vault levels are available: "Basic", "Advanced", "Superior" and "Institutional". If a client owns several vaults, the vault level is determined separately for each vault. The vault level depends on the equivalent value of all purchases and sales of the last 24 months, calculated in CHF.

Calculation date: The safe custody fees are calculated every month at 23.59 o'clock on the last day of the month.

The safe custody fee rates for the current vault level and precious metal types are displayed to users prior to the first purchase when a vault is created and confirmed by the creation of the vault.

An example of the calculation of the safe custody fees is attached in Annex 1 of these Fee Regulations.

b) Collection of safe custody fees

The safe custody fees are charged monthly at the time of calculation for each vault and precious metal type. The corresponding amount of precious metal is charged to each vault and precious metal type and transferred to the ownership of SOLIT Suisse.

2. Delivery and collection costs

When precious metals are delivered, delivery costs, consisting of form and shipping costs, are incurred in relation to the equivalent value of the precious metals delivered according to the following scale.

In the case of self-collection of precious metals, collection costs, consisting of a flat-rate collection fee and form costs, are incurred in relation to the equivalent value of the precious metals delivered in accordance to the following scale.

The delivery costs and the collection costs shall be indicated before issuing each delivery order or when arranging a collection and shall be confirmed by issuing the delivery order or when arranging the collection.

3. Calculation of the safe custody fee

Basic:

Advanced:

If the vault is classified as vault level Advanced, the safe custody fee is calculated as follows: safe custody fee for month X = $(1,000 \text{ g} * (0.0085)) / 12 = 0.7083 \text{ g gold}$

Superior:

If the vault is classified as vault level Superior, the safe custody fee is calculated as follows: safe custody fee for month X = $(1,000 \text{ g} * (0.0055)) / 12 = 0.4583 \text{ g gold}$

Institutional:

If the vault is classified as vault level Institutional, the safe custody fee is calculated as follows: safe custody fee for month X = $(1,000 \text{ g} * (0.0035)) / 12 = 0.2917 \text{ g gold}$

4. Payment of the safe custody fee
